Altruism

Altruism is defined as the quality of unselfish concern for the welfare of others. Giving children an opportunity to develop and practice caring for others is an important goal for parents and educators. Our Student Council's fundraiser for the Juvenile Diabetes Research Foundation (JDRF) raised \$1,462.41! This donation was proudly made in honor of our students at Central Trail who have been diagnosed with Type 1 Diabetes. 🐾

Aspiring Super Stars

This month's Super Stars aspire to be responsible and caring students. They strive to do their best work and to be respectful to adults, students and our school.
